## DESSO GRASSMASTER REFERENCE LIST

Project	<b>Emirates Stadium</b>	Built by: Hewitt Sportsturf Construction
Club:	Arsenal FC	Heating: -25 cm
Installed in:	April 2006	Watering: automatic
Country:	UK	Grass: seeded after Desso GrassMaster installation
City:	London	4 Desso GrassMaster pitches at the Arsenal training centre (2010 - 2011)
Sport:	Premier League football	

"Stadium pitches have to put up with a lot of punishment. Desso GrassMaster is a system that strengthens the grass and protects the roots. In all aspects, it meets the high expectations of our players."

John Beattie, Stadium Manager Emirates Stadium

"We were facing an important game. In the morning, the rain fell from the sky in buckets. Even so, we played that afternoon on a dry and level field, thanks to the excellent drainage."

Paul Burgess, Head Grounds man Arsenal FC

Project	<b>AZ Stadion</b>	Built by: Arcadis Regio BV
Club:	AZ	Heating: -25 cm
Installed in:	June 2006	Watering: automatic
Country:	the Netherlands	Grass: sand based sods by Hendriks Graszoden
City:	Alkmaar	Intensity of use: Games and training AZ
Sport:	Football	1 Desso GrassMaster training pitch (2006)

"Training and playing on the same surface is a plus for the team. Another advantage is that the playing characteristics of the surface are identical over the entire field. The team makes good use of that consistency to bring high-quality, technical football to the fans throughout the season."

Wijnand Vermeulen, Stadium Director AZ Alkmaar

Project	<b>Daknam Stadion</b>	Built by: De Ceuster NV
Club:	Sporting Lokeren OVL	Heating: none
Installed in:	July 2005	Watering: automatic

Built by: Arcadis Planrealisatie  
 Heating: -25 cm  
 Watering: automatic  
 Grass: sand based turf rolls  
 4 Desso GrassMaster pitches at Varkenoord -  
 Feyenoord training centre

"The payback effect on a Desso GrassMaster pitch is clear: the operating costs are significantly lower than they are for natural grass.  
 The grass sod doesn't have to be replaced, for example, either on the main pitch or the training pitch. It's also an advantage  
 that the team can train and play on the same type of pitch."  
 Rico Salomons, Stadium Manager Stadion de Kuip

Project: **Carrow Road**  
 Club: Norwich City  
 Installed in: June 2004  
 Country: UK  
 City: Norwich

Sport: Rugby, Football

Built by: Topturf  
Heating: none  
Watering: Automatic  
Grass: seeded

"We still can't believe how amazing this GrassMaster system is, we had two rugby matches, one after the other last Saturday and the field looked like it was hardly used. Desso GrassMaster really does what it claims to do. It stabilizes the field and prevents divots from forming after a heavy scrum"

Rob Wagner, Managing Director of Western Province Rugby Union

## DESSO GRASSMASTER REFERENCE LIST

Project: **Rat Verlegh Stadium**  
Club: NAC  
Installed in: September 1999  
Country: the Netherlands  
City: Breda  
Sport: Football

Built by: Heijmans - De Enk  
Heating: -40 cm  
Watering: automatic  
Intensity of use: 50 matches of the 1st and 2nd team per season, 50 training sessions per year, especially during the winter season, pop concerts

"We have struggled two seasons with our newly built stadium field. The water logging on the field resulted in major damage on the grass. We decided to install the sand based Desso GrassMaster field. Apart from having solved the water logging problems we now also have the opportunity for training sessions by the first and second team on the Stadium field"

Roelandt Oltmans, General Director Rat Verlegh Stadium

Project: **B-Mets Stadium**  
Club: Broome County Jets  
AA farm club of New York Mets  
Installed in: November 1998  
Country: USA  
City: Binghamton

 Sport: Football, Rugby

Built by Mallison Ltd.  
 Heating: -25 cm  
 Watering: automatic  
 Grass: seeded

"This is the best rugby pitch in the world. Better than Twickenham, Murrayfield, and all the other stadiums I have played on around"

Kenny Logan, Wasps and Scotland Rugby International

## DESSO GRASSMASTER REFERENCE LIST

Project: **Villa Park Stadium**  
Club: Aston Villa  
Installed in: July 1997  
Country: UK  
City: Birmingham  
Sport: Football

Built by Hewitt Sports turf  
Heating: -40 cm / integrated  
Watering: automatic  
Grass: seeded

"The extra time I get now is devoted to improving the playing surface even more, brushing the grass, an extra cut, spot fertilizing, the maintenance work is cut by a mile"

Tony Eden, Grounds man Villa Park Stadium

---

Project: **Galpham Stadium**  
Club: Huddersfield Town  
Huddersfield Giants RL  
Installed in: July 1996  
Country: UK  
City: Huddersfield  
Sport: Football, Rugby

Built by  
Built by  
Heating: -25 cm / integrated  
Watering: automatic  
Grass: washed turf

"Our experience of Desso GrassMaster was under treacherous climatic conditions when the ground was covered in snow. Given the conditions, the surface was outstanding and didn't cut up. The fact that it retained its integrity shows the benefit of such a reinforced grass system"

John Hart, Coach New Zealand Rugby Team

---

Project: **Lerkendal Stadium**  
Club: FC Rosenborg  
Installed in: August 1994  
Country: Norway  
City: Trondheim  
Sport: Football, Athletics

Built by Syntec A/S  
Heating: -25 cm  
Watering: automatic  
Grass: washed turf

"Already before the sewing of the synthetic grass was brought to an end, we observed the advantages of the Desso GrassMaster system. The main point is that the pitch with such a system could be used under extreme weather conditions"

Leff G. Solstad, Stadium Manager - Lerkendal Stadium
